Press Release- October 16, 2024 Cincinnati, Ohio

Re: Hunkar Technologies acquires Star Process and Control.

Hunkar Technologies, Inc. announced today that its Rixan Automation subsidiary acquired Star Process and Control, LLC on October 16, 2024 in an asset purchase transaction.

Star Process and Control, LLC, "Star Process", located in Dawsonville, Georgia, is a rapidly growing distributor of industry leading thermal related process systems, controls, instrumentation, heating devices, and temperature sensor components. Star Process serves numerous industries in the southern US market including- aerospace, automation, food, energy, chemical, medical, heat treating, plastics, and wastewater treatment.

Hunkar Technologies, Inc. "Hunkar" is a diversified manufacturer and supplier of industrial automation solutions; robot and cobot productivity enhancement systems; thermal process control solutions; barcode and QR code inventory and logistics process tracking networks; automated EPS cutting, label application, material handling and packaging solutions; machine control applications; vision and inspection systems.

Teresa Johnson, President of Star Process, expressed "On behalf of our customers and employees, I could not be more excited about this opportunity. By combining with Hunkar, an international Company with broad engineering capabilities, automation expertise and solid financial resources, I believe our customers will benefit tremendously. Tyler and I, along with all of our team members, will remain with the Company going forward. Tyler's and my role as the leaders of Star Process will not change and know that the personal service and quick response efforts customers have come to expect from us will remain top notch. This alliance with Hunkar will uniquely position Star Process to now provide even more critical products and technical services to its customers who seek to further improve their profitability and industry competitiveness."

Eric Thiemann, President and CEO of Hunkar added "All of us here at Hunkar feel truly blessed to be working with Teresa and Tyler Johnson and the entire team at Star Process! Teresa and Tyler have assembled a terrific group of talented employees focused on providing the comprehensive technical help thermal application system customers require. The success of their efforts is reflected by the company's rapid growth and impressive customer satisfaction results.
